Alrighty Eric,

this is going to sound so stupid. By any chance, could Pete help me out on this?

Pete, are you going to go to the NFB this week? I need ten 1 minute scalar measurements at approximately the height of the garden wagons exactly where the concrete was scanned on the garden wagons with the same pancake probe as used for the measurements on your spreadsheet (basically doing a pretend scan of concrete at the same location and same height but with no wagon or concrete). I've been running calculations and there just seems to be no way to free release the concrete by the new State "requirement" unless this gets done... Argggg...

Sorry about this

Hi Pete:

Thanks. We will talk at 3:30pm.

Can you please send the pancake probe survey results for concrete to Lyndsey and I?

Thanks

Subject: NFB/HTC Phone call

Can we have a phone call today around 3:30 PM? Will you have computer access so we can adobe connect and view products together if needed? If so, here is the link:
Adobe Connect Link: <https://epawebconferencing.acms.com/nfb/>

We can discuss our existing task list.

Subject: NFB Calendar

Hi Eric,
Prior to your departure tomorrow, please provide me the updated NFB site calendar.

Thanks and safe travels.
Also, enjoy the show and the well deserved time off.
